## 5 Check Local Guidelines

Remind residents to check local recycling guidelines for specific items that may have special disposal requirements such as vapes or chemicals

## 4 Separate Different Materials

Check for hidden batteries in rechargeable items and make sure these are disposed of correctly.

## 1 Rinse Containers Before Recycling

Emphasise the importance of rinsing food and drink containers to prevent contamination.

## 2 Flatten Cardboard Boxes

Encourage residents to flatten cardboard to save space in recycling bins. Stack all plastic pots tubs and trays

## 3 Remove Lids from Bottles and Jars

Instruct to remove plastic lids and metal caps before recycling.
